

JUAN C. SANCHEZ-ARIAS, MD, PHD

Trained as medical doctor and neuroscientist, I'm currently investigating the molecular and cellular mechanisms underlying cardiac arrhythmias and seizures associated with a novel genetic variant in an ion channel adapter protein combining model organism research, clinical genetics, bio-informatics, and computational modelling.

EDUCATION

2020
|
2015

Doctoral of Philosophy in Neuroscience

University of Victoria - Division of Medical Sciences Victoria, BC, Canada

- Dissertation: Pannexin 1 regulates dendritic spine formation.
- Relevant coursework: Developmental neurobiology, Tools for the study of ion channels.
- GPA: 8.2/9.0.

2014
|
2007

Doctor of Medicine (Medico y Cirujano)

Universidad del Valle - School of Medicine

Cali, Valle, Colombia

- Pre-Diploma Rotatory Internship: Hospital Universitario del Valle ESE - Universidad del Valle. Cali, Valle. Colombia.
- Research Internship: Centro de Estudios Cerebrales (Centre for Brain Studies). Universidad del Valle. Cali, Valle. Colombia.
- Observership: Functional Neurosurgery. Department of Neurosurgery. University of Illinois Hospital & Health Sciences System. University of Illinois at Chicago. Chicago, IL. USA. Supervisor: Dr. Konstantin Slavin.
- Professional elective: Neurosurgery and Neurocritical Care. Department of Neurosurgery. Hospital Universitario del Valle ESE - Universidad del Valle. Cali, Valle. Colombia.
- Relevant Coursework: Functional Neuroanatomy, Cerebral cortex cytoarchitectonics, Scientific Integrity, Biostatistics, Addiction and Pharmacology, Systems Pathology.

RESEARCH EXPERIENCE

Current
|
2020

Postdoctoral Fellow

Division of Medical Sciences

University of Victoria

- Advisors: Leigh Anne Swayne, PhD; Laura Arbour MSc, MD,
- Area of study: ankyrin adapter proteins, ion channels, calcium and voltage dysregulation in cardiomyocytes and neurons with ankyrin variants.
- Community medical genetics in inherited arrhythmias.
- Cardiomyocyte and neuronal calcium homeostasis
- Bioinformatics and computational modelling of cardiomyocyte physiology.

TECHNICAL SKILLS

Project Management

Scientific Writing

Microscopy

Cell culture

Bio-image analysis

Biostatistics

R

Python

Bash

MATLAB

2020
|
2015

Graduate Research Assistant

Division of Medical Sciences

 University of Victoria

- Advisor: Leigh Anne Swayne, PhD.
- Area of study: Pannexin 1 channels, dendritic spine plasticity, synapse formation, channel trafficking, neuronal cytoskeleton dynamics, neural stem cells, advanced microscopy for cell biology.
- Generated conditional and conditional-inducible knockout models for the study of cerebral cortex development.
- Optimized protocols to generate primary neuronal cultures from neonatal mice suitable for network analysis.
- Developed methods to visualize dendritic spines and filopodia in tissue sections and living primary neurons.

2014
|
2013

Research Medical Intern

Centro de Estudios Cerebrales

 Universidad del Valle

- Advisors: Martha Escobar, MSc; Hernan Pimienta, MSc, Efrain Buritica, PhD.
- Area of study: functional neuroanatomy, cerebral cortex organization, traumatic brain injury, stroke, neuroprotection.
- Performed carotid ligation in Whistar rats using microsurgery techniques.
- Investigated diffuse traumatic brain injury using a weight-drop model, organotypical rat brain slices, fluorescent immunochemistry and microscopy.

2011
|
2010

Undergraduate Medical Researcher

School of Public Health

 Universidad del Valle

- Advisors: Enrique A. Estevez, MD and Elsa P. Muñoz, MD, MPH
- Area of study: cardiovascular risk factor assessment in spinal cord injured patient assisting to a tertiary-level hospital.
- Prepared a research project proposal, liaised with ethical boards, and established a network of collaborators to complete a standarized and regional survey in cardiovascular health.
- Led data management and prepared reports and presentations to share project results in local and national meetings.
- Contributed to the assessment and management of patients with chronic spinal cord injury, including prescribing rehabilitation plans and ordering of radiological and laboratory ancillary tests. Discussed cases with Physical Medicine and Rehabilitation attendings and residents.

TEACHING EXPERIENCE

2020
|
2017

Foundations of Medical Practice I and II

Island Medical Program

 University of Victoria

- Courses: MEDD412 (Year 1), MEDD421 (Year 2), MEDD422 (Year 2).
- TA for Neuroanatomy Bootcamp and Laboratories.
- Subjects: Cranial Nerves V & VII and Pain, Eye Movements and Brainstem, Cerebral Cortex, Functional Areas, and Blood Supply, Control of Movement and Cerebellum, Limbic System/Dementia

SERVICE & LEADERSHIP

Current
|
2017

Co-editor for the BC Regenerative Medicine Network Newsletter

BCREGMED

- Involved in BC Regenerative Medicine Symposium organization, recruiting speakers and sponsors, and evaluating abstract submissions and posters.
- Involved in brainstorming and organizing workshops for trainees.

Current
|
2017

CIHR Brain Bee

Victoria Chapter

 Victoria, BC, Canada

- Organize and coordinate social media for the Victoria Brain Bee. Mentored high school students from the Greater Victoria Area who participated in the Brain Bee competition
- Secure funding to sponsor Victoria Brain Bee winners traveling to the CIHR National Brain Bee.

Current
|
2018

Let's Talk Science

University of Victoria

 Victoria, BC, Canada

- Contribute to Neuroscience Outreach talks and high school science excursions at the University of Victoria - Division of Medical Sciences.

Current
|
2021

Who Can Become a Scientist? - A workshop for High School Students

Co-founder and Co-organizer

 University of Victoria

- "[Who can become a scientist?](#)" is a symposium for a high school age audience that discusses equity, diversity, and inclusion issues in science.
- It reflects on the stereotypical image of scientists and the importance of leveraging support from role models and mentors to increase diversity in STEM.

2020
|
2017

Neuroscience Graduate Student Association (NGSA)

University of Victoria

 Victoria, BC, Canada

- Student Representative - Division of Medical Sciences 2017-2018.
- Contributed to organizing the Neuroscience Graduate Program Kick-Off. Liased and recruited keynote speakers for seminar lectures.

AWARDS

2024
|
2021

Research Trainee Award

Michael Smith Foundation for Health Research

- Project: [The impact of the loss-of-function ankyrin-B p.S646F variant on cardiomyocyte and neuronal excitability: Implications for diagnosis and treatment of heart disease.](#)

2019
|
2019

NB Gilula Star Award

International Gap Junction Conference

- Star Award and lecture for top-ranked abstracts.

2019
|
2019
